

PROJECT 2025

THE REPUBLICAN AGENDA FOR YOUR FUTURE

Project 2025 is a detailed instruction manual for Republican candidates, from the President down to your City Council members, for how to **dismantle the institutions and policies that make our country great.**

They do not want you to know about it, because they know that if you know about their plan to **systematically strip away your freedom, your rights, and your ability to provide for your family you will do everything you can to stop them.**

Democrats at every level of government **listen to voters** and enact policies to ensure that **your future and your family are their top priority.** They **invite your vote**, and they **welcome your participation** in the democratic process.

Your choice could not be more clear. **Vote for Democrats this November.**
